## Route 162 Crash Fatal To Depot Employee

Joseph Takacs, 44, Dies  
In Head-On Collision;  
13 Area-Fatal Injuries

A head-on collision of two autos at 9:25 p.m. Sunday on Route 162 a mile and a half east of Route 111 took the life of a Granite City Army Depot mechanic, Joseph Takacs, 44, a former Granite City resident.

The crash was one of 37 occurring in the Quad-City area during the weekend. Non-fatal injuries totaled 13.

State police have not yet completed their investigation of the Route 162 accident, but it was learned from his family that Mr. Takacs, a resident of Route Four, Edwardsville, was on his way to Granite City.

James Mayer, 32, Glen Carbon, driver of the other auto suffered severe injuries and was taken by ambulance to St. Elizabeth Hospital, where he is in fair condition today. He suffered lacerations to the chest and both knees, a laceration over the left eyebrow and swelling of the left forearm.

Two other people in the car were taken to the hospital. Both vehicles were badly damaged.

Mr. Takacs, also brought here by ambulance, was pronounced dead upon arrival at St. Elizabeth Hospital.

**World War II Veteran**  
He was born in Granite City and resided here until moving to the Edwardsville rural area 25 years ago. He served in World War II and had been employed at the local Army Depot for the past 17 years.

He was a member of East St. Louis Local 1494 of the International Union of Operating Engineers.

Survivors are his wife, Mrs. Dorothy E. Takacs, Collinsville, two daughters, Julia Long Takacs, nine years old, and Michelle Rene Takacs, five, both of Collinsville, two step-children, Marilyn Tichenor and Covadine, 13 and 11, both of Collinsville. (Continued on Page 17, Col. 2)

## Lee To Go To NYC For Refinancing McKinley Bridge

Mayor John E. Lee will go to New York City early in January to study the possibility of refinancing the Venice-owned McKinley Bridge. His plans were announced at Friday night's meeting of the Venice city council which changed its Jan. 3 meeting to Jan. 10 due to the trip.

A low bond interest rate will be sought, and proceeds from the refinancing would be applied toward the cost of constructing an auto underpass north of the Broadway railroad crossing.

Current bridge bond issues date from November 1958, when the city purchased the Mississippi River bridge.

The council discussed the transition to the new court system, which will go into effect Jan. 1. There will be no city police magistrates after they complete their current terms, but Madison county will have four or five magistrates.

**Plan Delay On Tickets**  
While adoption of uniform traffic tickets has been suggested, City Attorney Harry E. Hartman recommended that the city delay such action for about six months, by which time traffic arrest procedures in Illinois may have become standardized.

One of the questions asked but unanswered during the discussion was "Who's going to pay for the meals?" This was in reference to the cost of the meals. (Continued on page 4, col. 2)

## Motorists Urged To Use Caution During Holidays

Motorists were urged by authorities to use caution in driving during the Christmas holidays to prevent tragedy, injury or damage to property during the joyous season.

No extra precautionary measures are planned, however, State police will have the normal staff of troopers on the highways. One said, "Christmas days are our lightest day."

Granite City Police Chief Raymond Willard advised that the best way to prevent a traffic accident is to leave the car in the garage on Christmas day.

The National Safety Council estimated that about 300 and 350 persons will be killed in the holiday period from 6 p.m. tomorrow to midnight Wednesday.

The council said it expects nearly all of the nation's 70,000,000 vehicles to be on the roads and they will travel more than two billion miles during the period.

## River Traffic At Locks Nearly At Standstill

Frigid temperatures that have been freezing for over two weeks began slowing foot traffic on the ice-clogged Mississippi River late last week.

Lockmaster Roy Elliott of the Chain of Rocks canal locks said lockages dropped off to two yesterday and that there has been only one since last midnight.

The canal now has a three-to-four inch crust of ice above the locks, and there is much more ice at the north end. "The fewer lockages we have, the tougher it will be to go through," the lockmaster said.

Normal winter lockages of 14 to 15 were maintained until Thursday when the number dropped to 10, followed by nine on Friday and nine on Saturday.

River traffic dropped to two tows through the locks on Sunday. One tow, the Lynn B. southbound out of Joliet, entered the locks Thursday, but then backed out and went to the Granite City harbor where it tied up, presumably until the river clears, or possibly a change in orders.

Rivermen report an ice gorge is expected north of Cairo where there is also a problem with low water.

## New SWIU Campus Opening Delayed

Soil Structure, Weather  
Sets Back Fall 1964  
Date For 1st Buildings

Soil composition and weather are delaying progress on the new Quad-Cities-Edwardsville campus of Southwestern Illinois University, and the September 1964 target date will not be met for the first buildings to be completed.

The announcement was made Thursday evening during a meeting of about 200 educators from 19 counties who were addressed by Dr. Clarence Stephens, SWIU vice-president. He was unable to give a date for the start of classes at the new campus.

The present time, three buildings are under construction, but layers of shifting sand have slowed drilling operations to four holes 40 to 60 feet deep for hundreds of foundation footings.

Two months ago, the Press-Record learned of the difficulties not only with sand but with rock formations, "glacier rubbish" described as "glacier rubbish" and other materials would not support the foundations, and it became necessary to pour the concrete under pressure to get the required base.

**One Hole A Day**  
The crews are drilling about one hole a day instead of the scheduled three, because of the shifting soil.

The holes are two to four feet in diameter. Over 380 footings are to be drilled for the three buildings under construction, Dr. Stephens said.

Under construction is a general classroom building, the university library and a science laboratory and classroom structure. Bids are to be opened Jan. 16 for a university center, and bids are to be sought in the near future for the communications building.

Because of the anticipated high enrollment, SWIU is expected to continue its residence centers at Alton and East St. Louis even as the new campus is completed.

Dr. Stephens pointed out that total enrollment at the present time had been expected to reach 5,000, and instead there now are 5,700 students enrolled.

**By Reduced Bus Runs**  
A Bi-State Transit System spokesman advised the Press-Record today that the announced reduction of 48 bus runs will not affect bus operations in Illinois. All of the runs are located in Missouri.

The change after Christmas will coincide with a seasonal decline in riding. Twelve of the runs represent extra service supplied during the pre-holiday season, and the other 36—about 2% of the total miles of service provided by the transit system—are being dropped because of the reduced patronage anticipated in January and February. No drivers are being laid off.

The early-in-the-year seasonal decline in passengers was 8% a day, Jan. 3.

Meetings of the Granite City school board Tuesday and the Venice township board Wednesday have been canceled.

LAST MINUTE HINTS are given to Santa by Denise Starling, three-year-old daughter of Mr. and Mrs. Ray Starling, 2598 Lynch avenue, during yesterday's Christmas circus given at Granite City high school gymnasium by A. O. Smith Corp. for employees and families. The two performances were attended by nearly 4,000 persons, and each child received a toy from Santa.

## 'Tree Of Lights' Short Of Goal

Contributions are still being received for the \$500 Salvation Army "Tree of Lights" campaign to provide food, clothing and toys for needy Quad-City families for the holidays.

Campaign chairman E. A. Karamell reported this morning that 71% of the goal had been attained, about \$320, and that 52 of the 180 lights on the tree at Memorial Park still are dark.

Contributions are being received with each mail. He expressed hope that sufficient units will be received in time for the distribution this week of 350 baskets. Other groups, including churches, clubs and organizations have taken over several hundred of the 600 applications.

Most of the baskets are being distributed today and tomorrow. Added to the list of donors turning in \$25 lights are: Pathfinders Sunday-School Class of Nidderhagen Memorial Methodist Church, Mr. and Mrs. Michael J. Lesko; United States workers Local 1785; Women of the Moose Lodge; Tri-City Thimprack; Dacotahs, Cyclo-gentiles, Division, Granite City Army Depot.

**Safety Rules Set For Ice Rink At Wilson Park**  
"No pushing or shoving on the ice."  
"No sleds."  
Brown added that youngsters should not stand too close to the logs. He said that last week one little girl had to be rolled in the snow when her clothing caught fire. The unidentified girl, who escaped apparent injury, was grabbed and thrown in the snow by David Bartels, 11 son of Mr. and Mrs. W. D. Bartels, 2599 Adams street.

Brown said an adult attendant will be assigned to the rink during hours of operation.

## Thieves Steal 11 TV Sets --- Valued At \$2000

Corsets Returned  
—With Greetings

The spirit of Christmas was instilled in a thief who had taken two corsets from the Madison high school last week.

The corsets, undamaged, were found by a custodian Saturday morning atop an incinerator at the rear of the school.

Attached was a note saying "Sorry we took them. Merry Christmas."

**Loot Taken At Madison: Two Youths Admit Four Burglaries In GC**  
Burglars looted a Madison television shop of \$2000 worth of TV sets and phonographs over the weekend in a wave of 14 thefts occurring in the Quad-Cities area over the weekend.

In Granite City, two teenage youths taken into custody Friday have admitted four recent thefts and face burglary charges. County authorities received a report of a \$600 strong-arm robbery in this area.

Television sets and phonographs valued at a total of nearly \$2000 were taken by burglars at the Solar Television and Radio store, 1070 Madison avenue, between 7:30 p.m. Saturday and 10 a.m. Sunday.

The list supplied by John and Boris Mangoff, proprietors, included six 18-inch screen portable television sets, a 16-inch portable TV set, a 25-inch screen console television, two other console TV sets, an AM-FM radio with stereo phonograph, a portable stereo phonograph and another portable phonograph.

Also taken was a 23-inch television set which was in the Solar shop for repairs.

Investigation by Madison police showed the entrance was gained by forcing open the front door. The intruders left through a rear door after forcing it open.

**Two Youths Caught**  
Granite City police cleared four youths of the charges after the arrest of two youths at 4 a.m. Friday at 21st street and Cleveland blvd.

They are Roger Clements, 17, of 2143 Benton street, and John Keith, 18, of 1628 Cleveland blvd. They were charged with burglary at Bob's tavern, 2100 Adams street, earlier the same day.

At the tavern, two beer boxes were emptied and filled with soda and beer and cans of pop. They also took money from the juke box.

Police said they also admitted the burglary at Nelson Electric Co., 2216 Nameoki road, where a radio, a television and other items were taken on Dec. 16, and thefts of appliances from a car owned by Omer Keith, 2128 Benton street, and of a snow tire from a car owned by David Bartels, 2139 Benton street, both on Dec. 12.

They waived preliminary hearings and risked bail for the Madison county grand jury by Police Magistrate Gasparovic who set bond at \$2500 each. Clements was released Sunday morning, and Holik remained in jail.

**\$60 Strongarm Robbery**  
Sheriff's deputies are investigating a \$60 strongarm robbery reported at 2:25 a.m. Sunday by Robert Werner, 4940 Lakeview drive, who blamed his difficulties on a man who offered to drive him home from a Johnson road tavern.

The man drove to an unidentified place. (Continued on page 4, col. 5)

**Heaton Named Court Clerk In New System**  
Carl Heaton, 2708 Madison avenue, has been appointed as a full-time circuit court clerk by Circuit Clerk Willard Portell of Granite City, effective Jan. 1 when the new judicial system goes into operation.

Heaton is a former postmaster in Granite City, is president of the Tri-City Lakeside Club and association, and formerly served as chief jailer at the county jail. He was returned before being appointed to his part-time court post.

ence to the care of prisoners confined in city jails.

The city's sixth-class fire insurance rating, similar to that of other nearby cities, is being retained, officials were notified by the Illinois Inspection and Rating Bureau of Chicago.

Possible fire improvements proposed included replacement of some fire hydrants and addition of other hydrants; altered distribution of the water supply; two paid drivers on duty at all times; new equipment; increased inspections; radio communications for fire vehicles; periodic building inspections; additional fire records; and stricter fire ordinances.

The report was taken under review. Mayor Lee questioned whether the lower rating would reduce insurance costs sufficiently to justify the added expenses of qualifying for the rating.

The council authorized installation of a street light on the west side of Fourth street 150 feet south of the Washburn railroad tracks and another light to be placed on Broadway.

An audit report by Bert H. Allison and Co., East St. Louis, comparing McKinley Bridge traffic in recent years, was accepted. Announcement was made of the dedication yesterday of a memorial to the late President Kennedy by American Legion Post 307.

### Arrested On Warrant

Arrested on a warrant charging resisting arrest and carrying a concealed weapon, Walter Lipsey, 311 Fourth street, Venice, was turned over to Brooklyn police at 9:30 a.m. Sunday.

Members of the Special Pollution committee met last week with Col. John M. Ansley, depot commander, and are hopeful of getting a site near the city's sewage pump station in order to hold down the cost of construction. Members of the committee were optimistic of securing the preferred site.

### Legal Opinion On Spending

Other business is expected to include legal opinions requested at last week's meeting concerning the legality of authorizing expenditures for projects or items not included in the city budget.

City Atty. George Filcoff Jr. was asked by Alderman Gabrielle Bettine for interpretations of laws governing appropriations, tax levies and spending without proper appropriation. He also was asked to determine if an alderman can accumulate his \$30 monthly expense allowance.

The opinion on unbudgeted expenditures was requested by the alderman after the council on Dec. 2 authorized installation of sidewalks in the vicinity of four schools. Her request for reconsideration was turned down by the council, and Mrs. Bettine said she would seek an injunction, if necessary.

### Pollution, Legal Opinions, Bids

Confirmation from higher authorities on the site for Granite City's sewage treatment plant at the Army Depot is expected in time for tonight's city council session.

The meeting on the fourth Monday of each month normally is reserved for committee sessions, but routine business is conducted before breaking up for committee meetings.

# Lilley Scores 29 In Second Half To Spark Warriors' Big Comeback

Slender Larry Lilley, an unlikely candidate for the bowl, full-of-jelly St. Nick role, nevertheless had a sackful of goodies for Coach Andy Sullivan on Friday night.

Playing Santa Claus in his own way with a basketball—Lilley presented the Granite City high school cheerleader with 29 points in the second half as the Warriors overcame the host Edwardsville Tigers 78-68 in the Southwest Conference play.

The present couldn't have come at a better time.

It certainly cheered Sullivan who must have felt grossly as he saw his boys fall behind 30-28 at halftime.

"That second half was the best we've looked all year," Irish Andy said. "We hit 70% of our floor shots and our re-

bouncing and defense really perked up.

But the upset-minded Tigers made things dismal in the first half. Among other things, they dominated in the key department of rebounding 21-11, with toughies Bob Hoskins and Bob Harris showing the way.

Lilley Off Two

Lilley, the team's leading scorer on the season, fell into the general first-half trend. He

made only three points and hit only one of nine field shots.

When he came back, there was no stopping him. He led outside, inside, over, under and around, and 18 points fell through in the third quarter as the Warriors pulled to within one point at 33-32. He added 11 points in the fourth period for a night's total of 32.

The 6-2 senior hit eight from the field and 14 of 16 from the foul stripe in the second half. But he wasn't the only factor.

The Warriors' press tightened up and Joe Hiles, who finished with 11 rebounds, paced a 24-6 domination of the boards in the half. Elton Hall and Jim Cauter also improved their rebounding prowess.

Profit Off Bench

Another important factor was the return of senior guard Jim Profit to the lineup after missing two games due to a leg injury. He went to shortly before the half ended and finished up with 15 points, including 11 in the final quarter.

"We were going badly and we had to see whether or not he was going to be able to help," Sullivan said. Profit passed the test easily.

Hall and Hiles wound up with 12 points each. For Edwardsville, Dave Bopp, who hit seven field goals in the first half, and Hoskins had 20 points each.

The Warriors' junior varsity won 74-72 as Elmer Wortham scored 16, Jerry Lyberger 12 and Larry Dillard 12.

Granite City plays Thursday night in the opening round of the Southwest Conference play at the Pontiac tournament against a St. Charles team. The Warriors' front line averaging about 7 1/2 inches, much taller than the Warriors.

# Bell Hits 30 Points As Madison Triumphs

A fine first half Friday night boosted the Madison Trojans to a 54-40 victory over the Triad Knights on the local high school's court.

The Trojans bolted to a 49-34 halftime lead in the non-conference game. They slowed down a little in the second half and Coach Earl McClanahan hopes his team retains that successful

style in the upcoming East St. Louis Holiday Tournament.

"If we play like we did Friday night," he said, "We'll give any team there a good battle." The lineup of the eight-team tournament includes the No. 1 team in the state, Collinsville, the school that earned high distinction Friday night by scoring 30 points—28 of them in the first three quarters.

Cecil Bell, the area's leading scorer in 1962-63, showed the form that earned him that distinction Friday night by scoring 30 points—28 of them in the first three quarters.

Bell's average this year is lagging a bit behind his 22.7 pace of last season, but there's good reason, according to McClanahan.

In all but four of the Trojans' seven games, Bell has left the game early either because of foul trouble or because the team was so far ahead. Then, too, Madison's nifty sophomore guard, Dale Turner, has taken some of the scoring pressure off the big boy.

Turner and Gary Skinner both hit 14 points Friday night, with John Summers adding 13.

show Good Hosts

"It was a good hustling ball game," McClanahan observed. "Of course, you never wear satisfied with defense when you give the other team 64 points."

The game, however, tallied the performance as one of the Trojans' best in a 5-2 season. Dave Wells, Triad's long-shoot expert, was the chief worry for Madison as he hit 24 points. Phil Armstrong, 6-4 senior, pumped in 20.

Madison opens at East St. Louis Thursday night against Peishans of Springfield, a team that features good height and a running game similar to that of the Trojans.

Before his release, Allen made statements admitting the robbery attempt last Dec. 2 at Life's drug store where he was shot and critically wounded by Clarence Life, 80, the proprietor of the store. He also admitted a holdup at a Madison grocery store the previous Saturday.

The crime was reenacted for police at the store Thursday with the cooperation of the proprietor. Allen has been bound over to the Madison county grand jury on the charge.

### Cohan, Cruse Exchange Letters Over Assessments

Two Quad-City area tax assessors, Joseph J. Cohan of Namooki township, and H. Von De Cruse of Granite City township, are exchanging letters in disagreement over assessing procedures in their townships.

Cruse recently called attention to the Namooki property valuations, saying they were lower than those in Granite City for corresponding homes, and that because of the difference, residents of the Granite City school district living in Granite City were paying proportionately more than school district residents living in Namooki township. The same applies to taxes paid to the levee district and county, Cruse said.

Cohan also stated he had given proportionate cuts in real estate values this year after being advised by the Granite City Real Estate board that property values had declined about 20% since 1958, when the last quadrennial real estate assessment was made.

Cohan asks questions. "I don't want to start an argument with any other assessor, but I plan to propose at the next meeting of the assessors' association for the 24 township assessors in the county, that a resolution be adopted for presentation to the county board of supervisors, calling for a county supervisor of assessments and possibly a county-wide revaluation by an independent firm of experts," Cruse said.

Cruse said they were all professional and qualified appraisers. During this year's real estate assessing, Cruse said, he hired Richard Keller, who is not a member of the real estate board but is a professional appraiser, to help him at \$150 an hour, "the regular pay for deputy assessors," Cruse added.

Cruse's reply, which went out Friday, stated that to comply

### Rulings By State On Tax Questions, Public Officers

Surplus civil defense tax funds may be used for general purposes, Illinois Attorney General William G. Clark has advised Col. Donovan M. Vance, director of the Civil Defense Agency, it was announced today.

In other new legal opinions, Clark has held that:

Where a check is taken in payment of taxes, it is only a conditional payment and does not constitute payment until the check is actually paid.

Consequently, where payment has been obtained against real estate for delinquent taxes and, prior to the sale, a check is returned for "not sufficient funds," the county collector can advertise for sale such land under orders previously given.

Voluntary case workers for a County Department of Public Welfare are covered by the provisions of the Workmen's Compensation Act while voluntary staff members are not.

The Board of Review and the Department of Revenue determine whether property is exempt from taxation.

A male under 21 years old cannot be appointed a deputy clerk of the circuit court while a female 18 years old can be so appointed.

The office hours of county officers and legal holidays are fixed by statute.

The Prevailing Wage Law Requires payment of the prevailing rate of wages to employees engaged in the transportation of materials to a public construction job site when such employees spread the material as a part of the construction work.

The act, Clark's opinion said, does not cover employees who merely stockpile the transported materials.

A county recorder should not record deeds to land in a subdivision where the county board has rescinded its earlier approval of the plat of the subdivision.

And trailer courts and horseback riding stables are places of public accommodation or amusement and hence are included within the coverage of the Civil Rights Act.

**Courthouse To Be Closed Day Before Christmas**

The Madison county courthouse will be closed tomorrow in addition to Christmas day following approval by the county board of supervisors last week.

The board decided to give courthouse employees an extra day off for the holiday.

The courthouse also is to be closed on Jan. 1. There was no request for a day off on New Year's eve.

### A House By Christmas —It's A 'Giveaway'

A house that three years ago was valued at \$10,500 can be obtained for the \$8500 balance due (\$86 a month) from a Granite Cityan who must get rid of the house by the first of the year in order to clear his GI for another home.

"It's a giveaway, and just in time for Christmas," was the comment of J. C. Cochran, local realtor who is handling the transaction. "He's giving away his equity in it."

The house is located on Chestnut street near the Granite City Army Depot. It has four rooms, carpeted living and dining rooms and has a stairway to two unfinished rooms upstairs. Alsbach is a one-to-one air-conditioner and a summer kitchen in the basement. The house is frame and has aluminum siding.

Windows front and back, gas furnace and fenced yard. It's on a 50x125-foot lot.

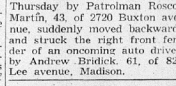

Cochran explained the only charge to whoever takes the house is the \$25 transfer fee and the cost of the advertisement appearing in today's issue.

"The man has a problem," Cochran explained. "The Veterans Administration says he can't own two houses, and he wants to get into his new place by the first of the year."

**Police Car In Accident**

A Granite City police car was parked at the curb at Niedringhaus avenue and Cleveland blvd. Thursday by Patrolman Roscoe Martin, 43, of 2720 Buxton avenue, suddenly moved backwards and struck the right front fender of an oncoming auto driven by Andrew Bridick, 61, of 824 Lee avenue, Madison.

## THIS I BELIEVE

I believe in the virgin birth of Jesus Christ. This means that I believe that Jesus did not have an earthly father, but that He was conceived by Mary of the Holy Ghost (Isaiah 7:14; Matthew 1:18-23). I believe that Joseph did not live with Mary as man and wife until after she had brought forth her firstborn Son (Matthew 1:25). After the birth of Jesus Mary was of course no longer a Virgin when she took up her normal life as the wife of Joseph when she bore other children both sons and daughters to Joseph (Matthew 12:46, 47; Mark 3:31, 32; Acts 1:14; 18:25, 26; Mark 6:3; Galatians 1:19; Luke 8:19, 20; John 8:1-5). Of course we realize that cousins were known generally as brothers by some, but the context of the Bible does not permit this broader term in Jesus was had to the contrary; they are specified unqualifiedly. His real immediate brothers and sisters (of course half brothers and sisters since Jesus had no earthly father). In a word the birth of Jesus, the GOD-MAN, was a virgin birth, not by immaculate Conception since Mary had other children. The mother of Jesus married for the Holy Ghost like all the rest of Jesus' disciples (Acts 1:14). She was blessed above all women in bearing Jesus into the world, and her memory is high in the hearts of all who love Jesus. We will see her when she is resurrected with the Church at the Second coming of Jesus.

## October Shows Decline In Public Assistance

Old age assistance, aid to dependent children and blind assistance rolls declined in October while disability and general assistance programs registered gains according to Harold O. Swank, director of the Illinois Department of Public Aid.

Swank reported a reduction in the total number of persons on public aid and expenditures compared to September.

A reduction in the number of persons receiving aid to the medically indigent aged and the amount of payments in their behalf contributed to the decline. There were 415,458 persons receiving aid during October, a collection of 11,895 from September's total and 9927 fewer than October 1962.

Public aid expenditures in October amounted to \$22,909,840 compared to \$24,037,318 in September and \$23,970,744 in October of last year.

Madison county has 6947 persons receiving \$308,531 in financial aid from the state. Of that total 980 persons are receiving \$84,283 in old age assistance and 4461 are receiving \$185,713 in aid to dependent children.

## Firemen Give Advice On Handling Christmas Trees

**BEFORE YOU BUY  
GIVE PERDUE A TRY**

910 Madison Ave., Madison  
FOR ALL YOUR FURNITURE  
AND APPLIANCE NEEDS

With Christmas trees now in most Quad-City homes, churches and business places, area firemen today again issued reminders for exercising caution to prevent serious blazes.

They suggest placing the tree in the coolest place in a room—away from radiators, heaters and the fireplace and to use a stand with a water container.

Firefighters recommend using only flameproof decorations—such as glass, metal or a fire-resistant material. Christmas tree light strands should be inspected before being installed. If the wires are frayed, discard the strand. When buying new ones, look for the UL label of Underwriters Laboratories, the firemen advise.

If tree needles begin to turn brown from lights, relocate the lights. If the needles begin to fall, it's time to discard the tree.

Added suggestions are to keep electric trains that throw sparks away from the tree, make certain the electrical outlet for the tree is a distance from the tree and can be reached easily, and assign someone to make certain that the tree lights are turned off when the family retires or leaves the house.

The precautions apply to natural trees, and firemen add that metal trees should never be decked with lights. Off-the-tree lights are recommended.

## Army Promotes Love To Captain In France

William H. Love, 27, son of Mr. and Mrs. William V. Love, 2548 Hodges avenue and a 1954 graduate of Granite City high school, has been promoted to captain while serving with the U. S. Army General Depot, Bismarck, in France. It was learned here this week.

Capt. Love, who is an inspection division chief of the depot, was graduated from Missouri University School of Mines and Metallurgy in 1959. He was employed at Good-year Tire and Rubber Co., Akron, Ohio, before entering the army. His wife, Elinor, is with him in France.

Young birds do not need their parents to teach them to fly. Adult birds may try to lure their full-fledged offspring away from the nest, but this merely encourages them to follow their natural instincts.

## Hits Parked Auto

A car driven by Dr. Felicia Koch, 55, of 2641 Edison avenue, struck a 1964 automobile owned by the Butler agency, Edwardsville, which was parked at 21st street and Madison avenue, at 3:30 p.m. Thursday as she was making a turn onto 21st street enroute to St. Elizabeth Hospital. The accident report said the parked car was close to the intersection and "its back end was sticking out."

## Street Lane Too Narrow

A near head-on collision occurred at 7:55 a.m. Friday at 2111 Illinois avenue as two cars tried to pass in lanes made too narrow by cars parked on both sides of the street. Drivers of the autos which slid on ice were Kenneth J. Fowler, 18, of 2131 Illinois avenue, and Thomas J. Sneed, 37, of 1411 Norwood drive.

## All Homes Sold In Madison Neighborhood, More Planned

Residential sales have set few records in 1963, but one of the success stories of the year has been the development of a group of 14 brick ranch and duplex homes valued at about a quarter-million dollars in the 1700 block of Elizabeth street and at Plum street and McCambridge avenue, Madison. All have been sold.

John Sobol, associate broker of the Bloodworth Real Estate Co., has taken particular interest in the neighborhood because he was born and reared there and is convinced of its attractiveness. Factors cited include the wide range of municipal services, among them new sewers, lighting, streets, utilities, sidewalks and fire hydrants. With the apparent permanent closing of nearby parking house operations, even further interest was generated and the subdivision resulted, Sobol recalls. The principal builder has been Leo Wolf, developer of Laurels Park Estates.

The lots which were available for single-family homes on Elizabeth street near McCambridge avenue were less than 50 feet in width, but a unique floor plan was devised to permit maximum privacy despite the limited lot area.

Sobol praises Third Ward Alderman Raymond Kozielek and other Madison officials for their cooperation in converting the vacant land to choice homesites in a city supposedly having little room for new homes.

And he has further plans for housing in northern Madison—20 quality brick homes in the vicinity of 14th street and Washington avenue.

## Wool Program To End '63 Marketing Year

The 1963 marketing year under the National Wool program ends Dec. 31, according to Edwin C. Rethmeier, chairman, Agriculture Stabilization and Conservation Committee of Madison county.

Rethmeier explains that payments for 1963 will depend on completing all details of marketing either wool or lambs by the end of the year. Marketings completed after Dec. 31, will be eligible for payments for the 1964 marketing year.

The marketing year has been shortened this year to nine months in order to shift the wool marketing year to a calendar-year basis Rethmeier further explained.

He urged that producers make sure that all details of 1963 sales be completed not later than Dec. 31 and said that applications for this year's marketing year payments may be filed with Madison county ASCS offices until Jan. 31, 1964.

## Street Dept. Continues Snow And Ice Work

Miscellaneous tasks included work on street and traffic signs, repaving street department equipment and operation of the road grader.

## Dry Year Unless December Becomes Much Wetter

Unless December turns into a wet month, 1963 will be the eighth driest year of the century in Illinois, an Illinois Water Survey climatologist told a Southern Illinois University zoology graduate seminar group.

Stanley A. Changnon, Urbana, the speaker, said only last March stands as a wet month in more than a year. Local precipitation is about seven inches below normal for the year.

Much of Changnon's illustrated discussion concerned 10 years of water survey studies of rainstorm characteristics in central and southern Illinois, including comparison of the use of radar with concentrations of rain gauges to determine variations in the amount of rainfall within a small area.

He said variations of as much as seven inches of rainfall per year may occur in any year within a 10-mile distance. Studies were centered on a central Illinois area extending west of Champaign and on a 25-mile square area in southern Illinois east of a line from Carbondale to DeQuoin. More exact information could be obtained from rain gauge readings than radar observations, he said.

About twice as much rain falls during the winter in southern Illinois than in central Illinois. This is attributed in part to stagnation of warm fronts in areas between the two regions. Annual rainfall in lower southern Illinois is as much as 10 inches more than in the flat region of central Illinois.

Less variability in the amount

O Lord, make us instruments of Thy peace  
Where there is hatred, let us sow love  
Where there is injury, pardon  
Where there is discord, union  
Where there is doubt, faith  
Where there is despair, hope  
Where there is darkness, light  
And where there is sadness, joy  
O Divine Master, grant that we may not so much seek to be consoled as to console  
To be understood, as to understand  
To be loved, as to love  
For it is in giving that we receive  
It is in pardoning that we are pardoned  
And it is in dying that we are borne to Eternal Life.

# This Holy Night . . .

let us be silent for a little while  
this holy night,  
let us go out where the silver winter stars  
hang still and white,  
and let us find his star, and stand beneath  
its drenching light.

we will be calmer for the while alone  
where still things are,  
we will be stronger than we were before,  
and cleaner, far,  
for the brief time beneath the showering light  
of one white star.

and oh, i think if we wait, and if we watch,  
that star will pour  
a radiant silver light along the hills,  
will go before  
and lead all earnest seekers for the christ  
to his very door

### Safety Council Urges Yule Spirit In Holiday Driving

"Motorists expressing the Christmas spirit in their driving will help save lives on Illinois highways during the 1963 Christmas holiday season," Charles Ziegler, president of the Quad-Cities Safety Council said today.

The good spirit of Christmas should be kept in mind particularly when motorists are behind the wheel of their autos, "Good will toward men" and the spirit

of Christmas must be extended into driving habits to stop the needless loss of lives on our highways.

He said by using the courtesy and thoughtfulness of Christmas in driving, motorists will all become safer and more alert to driving conditions.

National Safety Council facts show that 643 persons were killed immediately in traffic accidents during the four-day Christmas holiday period last year and an additional estimate of 167 persons died later as a result of injuries suffered in holiday accidents.

"The only way to decrease the deaths of loved-ones and friends during the family holiday season of Christmas is for each motorist to keep Christmas in his driving," Ziegler said.

The Christmas holiday period this year will start at 6 p.m. Tuesday and extend to midnight Christmas Eve, a one-day or 30-hour holiday period.

On the most recent one-day holiday period in 1957, there were a total of 345 persons killed, 345 persons in the nation who will never spend another Christmas season with their families.

Ziegler urges Quad-Cities to protect their lives and the lives of others by keeping Christmas in their driving.

"Enjoy the sacred holiday season; keep the spirit of good will toward all mankind in your daily life and in your driving the year 'round."
